

Supplementary Table 1. Computed tomography scoring parameters of encapsulating peritoneal sclerosis

	0	1	2	3	4
Peritoneal calcification	Not identified	Localized area < 20%	20% of the peritoneum	50% of the peritoneum	Extensive > 80%
Peritoneal thickening	Not identified	Localized area < 20%	Localized > 20%	50% of the peritoneum	Extensive > 80%
Bowel wall thickening	Not identified	Localized bowel	20% of the bowel	50% of the bowel	Extensive > 80%
Bowel tethering	Not present	Mild tethering	Moderate tethering	Marked tethering	
Loculation	Not present	3 < locules	3–6 locules	Multiloculated	
Bowel dilatation	Not identified	Localized bowel	20% of the bowel	50% of the bowel	Extensive > 80%
